PROFILE

Dynamic Business Informatics graduate with a dual degree, mastering JavaScript, TypeScript, React, Next.js, Node.js, and SQL. Proven through internships, I built websites for multiple users and refined scalable applications. Driven to engineer high-performance, innovative solutions, I'm eager to excel as a Software Engineer specializing in frontend and full-stack development

EDUCATION

9 Months Professional Diploma - Open Source Applications Development, *Information Technology Institution (ITI)* 10/2025 – Present

B.A. in Business Informatics (Dual Degree) – Excellent Grade (GPA 3.72), *University of Northampton (UK) & Arab Academy for Science, Technology (Egypt)* 09/2021 – 06/2025

PROFESSIONAL EXPERIENCE

Java Software Developer – Intern, *ITI* 08/2024 – 08/2024 | Remote

- Applied OOP principles to implement Java solutions.
- Gained exposure to software design patterns and structured programming.
- Strengthened debugging, error handling, and testing skills.

Frontend Developer – Intern, *Queen Tech Solutions* 08/2023 – 09/2023 | Cairo, Egypt

- Built a responsive website for a local gym, increasing user engagement by 20% through optimized UI with JavaScript and Tailwind CSS.
- Refactored 500+ lines of frontend code, reducing load times by 30% and fixing 5+ UI bugs.
- Used Git for version control, coordinating with a 4-person team to streamline development.

Business Data Analyst – Intern, *3S Software* 07/2022 – 08/2022 | Cairo, Egypt

- Wrote 15+ optimized SQL queries to generate reports on incident trends, used by senior management.
- Designed 3 Power BI dashboards visualizing traffic patterns, enabling data-driven policy decisions.
- Presented insights to stakeholders, enhancing communication and feedback skills.

PROJECTS

Connvia – Event Management Platform, *(Graduation Project, 2024)*

- Developed a full-stack web app enabling 50+ vendors, organizers, venues and attendees to coordinate events in Egypt.
- Tech: React, Node.js, Express.js, MySQL, Stripe API for secure ticket payments.
- Implemented scalable RESTful APIs, handling 500+ concurrent user requests

usePopCorn – Movie Rating & Watchlist App  , *(Self-Directed Learning Project, 2024)*

- Built a React-based app with OMDb API integration for movie search and personal watchlists.
- Utilized React hooks and state management to handle 100+ user interactions seamlessly.
- Deployed a responsive UI, tested across 5+ devices for consistent performance.

WorldWide – Travel Tracking App  , *(Self-Directed Learning Project, 2023)*

- Created a React app for logging travel experiences on an interactive Leaflet map.
- Leveraged React Router and Context API to manage global state for 200+ user entries.
- Optimized map rendering, reducing load times by 40% for large datasets.

Gym Website – Responsive Fitness Platform, *(Internship Project at Queen tech, 2023)*

- Developed a responsive website for a local gym, enabling 100+ users to browse services, book classes, and view schedules.
- Tech: JavaScript, Tailwind CSS, HTML5 for seamless UI/UX design.
- Optimized frontend performance, reducing page load times by 30% and supporting 200+ daily visitors.

Basket – E-Commerce Web Application  , *(Self-Directed Learning Project, 2022)*

- Full-featured e-commerce website with MVC architecture using JavaScript.
- Integrated Stripe test payments, processing 100+ mock transactions securely.
- Designed responsive UI with Tailwind CSS, improving mobile user retention by 15%.

SKILLS

Front-End (HTML5,CSS3,JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap)

Back-End (Java, Spring Boot, Node.js, Express.js, RESTful APIs, Microsoft SQL Server, MongoDB, MySQL2)

Core Concepts (Problem Solving, Data structures, Algorithms, Design principles, Agile, SOLID principles)

Methodologies (OOP, Software Design Patterns, Agile Development)

Tools (GitHub,Git, Postman, Figma, Power BI)

Soft Skills (Problem-Solving, Teamwork & Collaboration, Communication Skills, Adaptability, Continuous Learning)

CERTIFICATES

- AWS Cloud Practitioner [↗](#)
